

Trilogy Golf Club at Vistancia 2010 Play Package Programs

In 2010 Trilogy Golf Club at Vistancia will offer several different play package options designed for the occasional golfer to the frequent player. Depending on how often and when you want to play Trilogy has the package for you.

In lieu of the previous “unlimited play” options, we will be introducing a Flex Pass system, which means that while you will still have the opportunity to save big over the public rates, you will only pay for what you play. In order to introduce the Flex Pass system, current Pass Holders with an expiration date in the remainder of 2009 will have a renewal option. For all others the Flex Pass is available immediately as their only option, with a complete conversion taking place on January 1, 2010.

THE NEW FLEX PASS

The new Flex Pass options are ideal because they not only guarantee a low rate, but they also ensure that you only pay for what you use. Think of the Flex Pass like pre-paid vouchers – all you need to do is figure out how much you like to play and then make your selection accordingly. Also, any and all Flex Pass options can be combined to create your own “Perfect Pass”, meaning you can save seven days a week all year.
